

Demo day invitation

The Department of Industrial Design invites you to conclude the year with us at the Demo day.

All students will present their research, products, start-up proposals and everything in-between.

At Industrial Design we speculate on how people and societies will co-exist with technology in the future and aim to make emerging technologies usable, approachable and desirable today.

Let us know if you're coming. [Click here.](#)

December 21st, 2018

11:00 - 15:00, drinks to follow

Guided tour available at 11:00 and 14:00
